17-28 mm F/2.8 Di III RXD
for SONY full-frame mirrorless

This lens gives life to a new range of creative choices

Where large aperture (F/2.8) meets small filter size (Φ67mm).
Smallest and lightest ultra wide-angle zoom lens in its class*.

Step out of the normal lens zone and into the wilds of wide-angle

17-28mm F/2.8 Di III RXD (Model A046)
For Sony E-mount  Di III: For mirrorless interchangeable-lens cameras

*Among ultra wide-angle zoom lenses with an F-stop of F/2.8 or faster for full-frame cameras. (As of May, 2019: Tamron)
**A lens as luminous as your creative vision**

Capture the world from a fresh new angle with an ultra wide angle

The 17-28mm F/2.8 Di III RXD (Model A046) is a large aperture ultra wide-angle zoom lens for Sony E-mount that was designed exclusively for mirrorless cameras and provides unrivaled portability and superb image quality. The captivating 17-28mm zoom range was deftly designed to be the smallest size and lightest weight in its class* — just 99mm (3.9 in) long, weighing but 420g (14.8 oz)—while providing a large aperture. This lens is sure to add a new perspective to photographing landscapes, cityscapes, mountains and scenic vistas. On the technical side, strategically deployed LD (Low Dispersion) and XLD (eXtra Low Dispersion) lens elements thoroughly suppress chromatic aberration. Moreover, leveraging camera functions**, it provides excellent optical performance matching the latest high resolution image sensors from edge-to-edge throughout the entire zoom range. With this lens in hand you will capture the world from an entirely new angle.

**Superior close-up shooting performance empowers creativity**

Focal Length: 17mm Exposure: F/2.8 1/1000sec ISO: 400

The 17-28mm zoom features a MOD (Minimum Object Distance) of 0.19m (7.5 in) at the wide end, rendering a maximum magnification ratio of 1:5.2. At the tele end, the MOD is 0.26m (10.2 in) and the maximum magnification ratio is 1:6. You can easily get close for a powerful shot. Plus, you can produce soft expressions with a shallow depth of field distinctive to large aperture lenses by fully opening the aperture when shooting close to the subject.

**High performance autofocus system means you’ll own every shooting opportunity**

The AF drive on the 17-28mm zoom includes an RXD (Rapid eXtra-silent stepping Drive) motor unit to help you stay focused on the action. A sensor that accurately detects the position of the lens enables high-speed and precise AF, which is ideal when shooting continually moving subjects or recording video. Perfect for street shooting and grab shots of groups of friends. And with a focusing system that is both smooth and quiet, the new 17-28mm lets you shoot a video without worrying about picking up ambient drive sounds.

**Versatile, exciting combination when paired with the 28-75mm F/2.8 Di III RXD (Model A036)**

Two high-performance partners, the 17-28mm combined with the 28-75mm, cover the super-broad range from 17mm ultra wide-angle to 75mm medium telephoto, and maintain excellent speed with an open aperture of F/2.8. The total weight of the two lenses is less than 1kg (35.3 oz). Similar in design and operation, you can seamlessly concentrate on shooting after exchanging lenses. And since both models have the same filter diameter of 67mm, filters such as PL (Polarizer), lens caps and other accessories are compatible with both. This compact but potent combo makes the most of the mobility of mirrorless cameras.

**Built with Mirrorless in Mind**

Tamron’s new 17-28mm zoom is compatible with many of the advanced features that are specific to mirrorless cameras. This includes:

- Fast Hybrid AF
- Eye AF
- Direct Manual Focus (DMF)
- In-camera lens correction (shading, chromatic aberration, distortion)
- Camera-based lens unit firmware updates
- Moisture-Resistant Construction
- Fluorine Coating

* Features vary by camera. Please consult your camera’s instruction manual for details.

**Additional Features**

- **Camera-based lens unit firmware updates**
- **Moisture-Resistant Construction**
- **Fluorine Coating**
